BILLING

The Company will provide a Carrier specific Daily Usage File (DUF) to each Carrier reselling message and measured Company Local Exchange Services. This file will include individual service-specific daily usage for each resold message and measured Local Exchange Service. The daily usage file will include sufficient detail to enable Carriers reselling Company exchange services to bill Carrier's end user customers. No other detailed billing will be provided.

Interexchange call detail forwarded to the Company for billing, which would otherwise be processed by the Company, will either be returned to the Interexchange Carrier, and will not be passed through to the Carrier, or will be passed to the Carrier dependent upon contracts with each Carrier. - Such failure to provide billing information was not caused in part or in whole, by actions of the Carrier or other third parties; and
